

Exercise: Linking pages to a style sheet

1. If needed, open *update.html* in your editor and browser.
2. Click before the opening `<style>` container.
3. Press ENTER twice.
4. In the space above the `<style>` tag, type the following code:

```
<link rel="stylesheet" href="styles/styles.css" />
```

5. Save your changes and reload the page in your browser.
Headings and footer have green text and a light gray background as before.
