

# Exercise: Setting background colors

1. If needed, open *update.html* in your editor and browser.
2. Delete the footer rule.
3. Add the following to the `h2` selector:  
`h2, footer { color: #006633; }`
4. Add the following bold code to the rule:

```
<style>
```

```
h2, footer { color: #063; background-color: #eee; }
```

```
</style>
```

5. Save your changes and reload the page in your browser.  
*Headings and footer have green text and a light gray background.*
